# Message from THE CHIEF EXECUTIVE OFFICER

At time of print, our new campus should have started to take final form. Key elements of construction should now reflect the future of this fine organization. The renovated façade will mark the constant expansion of our life saving programs. The Medjool palms, life guard chairs, and beach themed landscaping are a proud reflection of our heritage. The new 20ft high roof will serve as a reminder of what we did to elevate our save rate to unprecedented heights. The new logo will remind us of how this organization rebranded itself as one of the premier open admission organizations in Florida.

At the front of the building you should see some familiar names covered in past issues. The Lohman Pet Adoption Center named after our Humanitarian of the Year (2017) and Capital Campaign lead, Nancy Lohman and her husband Lowell. The Culler Boarding, Grooming, and Travel Center, also named after a Humanitarian of the Year award recipient and longest-standing board member, Patricia Culler. PetSmart Charities is the sponsor of the new, high-tech Education Room. That's just the top three donors. The entire campus will reflect the relentless efforts of our leadership campaign members, sponsors, donors, partners, and more. A true measure of how a community came together to make a refuge for animals everyone could be proud of.

Inside these walls we will be offering a new experience. Whether you're one of our treasured volunteers, a prospective adopter or a client, we will offer new reasons for you to visit as often as you like. Mission based retail you can feel good about, adoption experience rooms where you can properly introduce your pet, a critter room with educational content, and even a multi-media educational room for children & adults!

As this issue serves to update you right before our grand opening, I want to send out a final special thank you to all those listed above and for those of whom space wouldn't allow. Our Board, Campaign leadership, our volunteers, our staff, elected officials, and every single one of you that has dedicated time or treasure. This new campus will serve as a marker of how a community can realize a dream when it works together. We have reimagined the future for animals in our community.

Grateful for your continued support,

Miguel Abi-hassan

*Halifax Humane Society exists to protect animals from cruel, neglectful and exploitative treatment. It is the belief of the Society that all living creatures possess an intrinsic value, which is manifested in its creation. Further, the Society believes that mankind must become a responsible steward of animals which he has domesticated and brought under his control.*

*The second story elevation is in place as the construction moves right along on the east side of the main campus facility.*

*Construction continues as the exterior of the building is applied.*

## RENOVATION **update**

The final phase of renovation is just days from being completed.

The renovation of the main campus facility is on schedule to be completed by the end of May 2019.

Lowell and Nancy Lohman, Capital Campaign Chair stopped by to check on the progress of the renovation and Nancy decided to lend a hand behind one of the pieces of heavy equipment on-site. Nancy is always willing to try anything if it makes the world a better place for our community's animals.

Coleman Goodemote Construction has been handling any and all issues that have come their way. All construction projects have challenges, but luckily for HHS, this project has been moving along smoothly. Thank you Coleman Goodemote Construction!

We would like to thank all of our Capital Campaign donors who helped us raise the \$3.6 million required for this renovation. Without their support we would not be able to reimagine our facilities to better serve the animals and our customers.

We would also like to thank all of our supporters and animal lovers who recognize our mission and dedication.

To see all of the photos of the construction process, visit <http://bit.ly/HHSreno>

*Lowell and Nancy Lohman get behind the controls of one of the pieces of heavy equipment to help with the progress of the renovation.*

*Inside construction of the education center.*

# Happy Tails!

*Of the 7,000 plus animals that enter our doors each year, many need medical attention. Here are just a few success stories that demonstrate how our veterinarian services save lives.*

We adopted Masie from you guys about 6 months ago. We believed she was used for dog fighting due to her scars and behavior towards other dogs, but she loves people and she's living her best life. We love her more than anything. She runs around the house and plays with her stuffed animals, and despite her weight of 65 lbs she loves being a lap dog and sleeps in bed with us every night!

This poor dog is an example of how people can neglect their pets. Nearly all of her teeth needed to be removed, and her nails were so long they were curled over.

Please don't take on the responsibility of a pet if you are not prepared to care for the pet. As well, if you find yourself in a position where you can no longer take care of your pet, do not take it to a park and leave it there. Bring it to HHS and we will help the animal to the best of our ability.

Believe it or not, this small dog had two giant size stones in her bladder. Dr. Green removed the stones and the dog is recovering nicely.

*These stones are about the size of a plum. They took up 90% of the dogs bladder.*

*Dr. Green educates staff on recent cases.*

This is Ferngully. She has multiple burns all over her body and open wounds from being attacked by other dogs. Dr. Green was able to treat the wounds and burns. Ferngully shown below with boots on her paws, is recovering slowly but surely. She is a very sweet dog and came right up to the photographer and gave him a big kiss.

*(Continued on page 6)*

# We love happy tails!

*(Continued from page 5)*

Believe it or not, this is a picture of an adult Golden Retriever. The dog was neglected and starved to near death. We believe he was tied outside and ignored. His body is covered in sores from hundreds of flea bites causing his hair to fall out. This dog is on the road to

recovery but it will take months to restore his coat and pack on some pounds. You would never know by this sweet face that the backhalf of this dog is in such bad shape.

The dog has been named Bentley and is now in a loving home with two dog brothers.

Happy tails is not just about surgery and illnesses. This is Daisey. She is participating in the Jackson Galaxy Project, which is a training program designed to teach cats behaviors like sit, touch, meow on command, roll over, and more.

Our behavior team has been successfully training numerous cats these behaviors and people love it! The trained cats get adopted so quickly. Who doesn't want a cat that can do tricks? This program was funded by a grant in part from GreaterGood.org, Halo, and Petco Foundation.

*Paula and Daisey learning touch command.*

# HOW TO PREPARE FOR HURRICANE SEASON

WHEN YOU HAVE PETS

[HTTP://WWW.HALIFAXHUMANESOCIETY.ORG/](http://www.halifaxhumanesociety.org/)

## PLAN AHEAD

Never leave your pets behind! Ask a friend or relative out of the path to stay with them, or try and find pet-friendly hotels or motels to evacuate to. Go to a pet-friendly shelter as your last resort.

## STAYING HOME

If you must stay home, keep animals inside ahead of the storm. Stay calm and stay close to your normal routine. Pets may be more comfortable in a carrier indoors under your supervision.

## FOOD AND WATER

Pack 3 days to 2 weeks worth of food and water per pet per day. Have separate bowls for each of your pets. Also pack a manual can opener for any canned food you have.

## TRAVEL KIT

Have one carrier/crate per animal they can stand in, medical supplies, leashes or harnesses, flea and tick prevention, towels, cleaning supplies, bedding, and toys for your pet.

## IDENTIFICATION

Make sure each pet has on a collar with your contact info and current I.D. tag. Keep vaccination records, ownership papers, and current photos of each pet with you.

## MICROCHIP PETS

Make sure your pets are each microchipped and that your contact information is up to date. If your pet goes missing, contact local shelters, law enforcement, and animal control ASAP.

# Letter from the Chief Financial & Development Officer Making a Difference

Dear Cherished Friends and Supporters,

EVERY gift makes a difference at Halifax Humane Society! Whether you donate items to our Thrift Store, have your beloved pet groomed at the Culler Boarding, Grooming & Travel Center, purchase retail items at the main shelter, respond to direct mail, adopt a pet, or participate in our fundraising events - YOU are making a difference and we are grateful! Please consider....

Our ninth annual Mutt Strutt will be held Saturday, April 13, 2019 at the Band Shell. It is the only day of the year that your dog is allowed to join you on the World's Most Famous Beach. This event will offer the opportunity to not only raise awareness about our mission but also vital funds necessary to care for our community's animals. You can help support the event by registering to participate in the event, starting a team, fundraising on social media, sponsoring the event, or by being a vendor at the Mutt Marketplace – each is critical to our ability to save more lives.

For those who are enamored with taking pictures of their furry friends, consider our calendar contest which begins July 1<sup>st</sup>. Just imagine your best friend becoming the 2020 Daytona Subaru Star, and the cover pet of the Halifax Humane Society calendar! Another fun way to support the care of so many forgotten animals.

We cannot make a difference without you! Please consider the many ways you can support our noble work. We need you.

You are a blessing,

Pam

*(Shown above, Mutt Strutt is one of our major fundraising events. The 2019 Mutt Strutt is on April 13th, 8:00 am to 1:00 pm. Help support the animals and sign up today at [www.HHSMuttStrutt.org](http://www.HHSMuttStrutt.org))*

Pam Clayton  
Chief Financial & Development Officer

P.S. Be strategic for tax planning - consider a charitable gift, an IRA charitable rollover gift, a gift of appreciated stock, or make a future planned gift through your estate plans to help save more lives

# SAVE THE DATE!

## UPCOMING EVENTS

### 9th Annual Mutt Strutt

**April 13, 2019**

Halifax Humane Society will proudly present the 9th Annual Mutt Strutt at the Daytona Beach Band Shell. Mutt Strutt is the only day of the year when dogs are allowed on Daytona Beach! Come out and join the fun. Register online at [www.HHSMuttStrutt.org](http://www.HHSMuttStrutt.org) and save!

### Neighbors Helping Neighbors Golf Outing

**June 1, 2019**

The 2nd Annual Neighbors Helping Neighbors Golf Outing supports the animals at HHS. The first outing last year was such a great time, that the organizers decided to make this an annual event.

### Dog Park on Ice

**July 10, 2019**

Join the fun on June 10th from 6:00 pm to 8:30 pm for an evening of fun on the ice at the Christmas in July themed Dog Park on Ice! Costume contests, food, and drinks make this fundraising event one of the most favored for owners and their dogs.

### Biktoberfest Ruff Ride

#### Poker Run

**October 17, 2019**

The annual Biktoberfest Ruff Ride Poker Run for the animals features 5 stops throughout Volusia County. The ride concludes at the Iron Horse Saloon with a BBQ dinner. Don't miss this exciting event.

### Community Events:

Mosaic Pet Palooza- 4/7

Port Orange Family Days- 9/26 - 9/29

*Visit our website for up-to-date information about our fundraising and adoption events as well as our third party events with our local business partners.*

# Dog Reunited with Owner Thanks to Concerned Animal Lover, Scenic Root

*(Scenic Root, animal lover.)*

If you have been around the Daytona Beach area for a while and have had the pleasure of visiting the Root Family Museum at MOAS, the name Scenic Root might sound a bit familiar. Scenic is a junior at Father Lopez and a committed lover of all animals.

On November 12, 2018, Scenic was returning from De-land around 9:00 pm when she noticed a dog at the end of the long driveway leading to her home. At first she thought the dog belonged to the neighbor because it was larger than her own dogs, Nemo, a Miniature Schnauzer, and Crystal, a Yorkie. Scenic exited her car and approached the dog, who appeared very timid and afraid.

Scenic went into her house and told her mother about the dog. About 20 minutes had passed and Scenic wanted to check on the dog. She and her mother brought the dog, food and water. The dog was extremely hungry and ate every bit of the food. As the dog ate, the metal bowl made a grinding noise against the concrete driveway and the dog didn't care for that. Scenic refilled the food bowl and the dog kept eating no matter how much food it was given.

Scenic's mother suggested that they let the dog be and both returned to the house. Around 11:00 pm, Scenic couldn't help herself and she decided to investigate the stray dog situation. She went to the end of the driveway and the dog was no longer there. Her heart sank a bit, but then she walked into the back yard and found the dog laying in an open porch area. Scenic put out some more food and water and she decided to lock the dog into the closed section of the porch so the dog wouldn't wander into the street or get hurt in any other way.

The next morning Scenic and her mom took the dog to the Flagler Animal Hospital. The staff scanned the dog and found that it had a microchip. The veterinarian staff contacted the owner to inform them that their dog had been turned in. The owner was so happy and had been looking for her dog for several days. Scenic and her mother left the vets office knowing that the dog would be reunited with its owner. Scenic told us that she would have liked to have kept the dog but was very happy that the owner was able to get her dog back. Her parents had agreed to let Scenic keep the dog if the owner could not be found.

Scenic attributes her love of animals to her parents being exposed to animals their entire lives. Her mother had many woodland animals (bunnies, squirrels, etc.) as pets and her dad had lots of dogs. She plans on pursuing a career in finance and business administration. Even though she loves animals, she can't stand the sight of blood so no vet services career for this young lady.

This story confirms the importance of getting your pet microchipped. The cost of a microchip is less than \$20.00 and HHS has clinics where they are just \$16.00. We have had many cases where, like in the case with Scenic, the dog was reunited with its owner in a matter of days, but even more unbelievable we have also had numerous cases of an owner and pet reunited after 3, 5, and even 10-years! Get your pet microchipped and have an extra precaution in place just in case your best friend goes missing.

HHS has two microchip clinics per year. Follow us on Facebook to receive announcements about the next upcoming clinic date.

## How to Welcome A Shelter Dog into Your Home

By: Barry KuKes, Community Outreach Director

Congratulations! You've just changed a life by adopting a dog from Halifax Humane Society and they're almost ready to come home with you. So, what happens next?

No doubt the staff at the shelter will give you ample advice and guidance, but we have some additional advice that you can take on board too. We have provided you with a range of simple and effective pointers that will help the new member of your family feel as comfortable and at ease as possible.

It is worth bearing in mind that there are measures you should consider, such as training, walks, etc. once your new pooch is settled in at home, but for now we're going to cover the initial points for you.

### Driving Home

Before you pick your new pet up, you should plan ahead in terms of where the dog will sit in the car on the way home. Ideally, you should have two people in the car; one to do the driving and another person to comfort the dog and make them feel as relaxed as possible.

### No Detours

When you've picked up the pooch, don't go taking any detours or running errands. You should take your pet straight home so that they avoid getting stressed out in the car.

### Don't Throw a Welcome Party

As much as you may have good intentions at heart, it can be really stressful for your dog to encounter multiple people upon arrival in a new home. Give them a few days to settle in before allowing people to meet the latest member of the family.

### Let Them Roam

Once you are home, give your doggy some time to explore their surroundings, have a sniff around in the garden, and get a feel for the place. Make sure you take them to the place where they will be going to relieve themselves, and reward them with a treat as soon as they do their business there.

You might want to install a fence or an invisible dog fence at some point to ensure that they are safe outside.

### Know Where to Do the Meet and Greet

Make sure that you introduce your dog to the rest of the family while you're all outside, and do it one at a time. You'll probably have met them on two or three occasions at the shelter, but it's best to keep it calm and low-key again now that they're home.

Give the dog the chance to approach, sniff and initiate the interaction. Offering up a treat is a good way to help the dog to familiarize themselves with family members.

You might be tempted to show your affections with hugs, kisses, picking them up, patting them on the head and staring at them when they first arrive, but these types of behaviors can make dogs feel scared or uneasy, so avoid them to begin with.

If you already have a dog or two, a slow introduction is required. All animals involved should be leashed and allowed to sniff each other to introduce themselves. An initial tussle may happen especially if you are adding a male dog to the home of another male dog or two. Who will be dominant needs to be decided so one dog might take the lead. The tussle might just be a subtle growl or a bark. There might not be a tussle at all if all of the dogs are good natured and friendly to other dogs.

### Let Them Outside Often

Be sure to take your pet outside regularly when they first move in. Even though they may already be well housetrained at their previous home, your dog will need to be introduced to the house rules that you set, and this will obviously need to include a housetraining refresher.

### Allow Plenty of "Down Time"

Finally, as part of making them feel welcome, you should also give your new dog plenty of opportunity for "quiet time". This will let them acclimate to all of their new surroundings.

Just remember to remain observant of their responses and keep everything at the dog's pace; after all, moving into a new home with a new family can be quite overwhelming.

Once the initial settling in period is over, you'll have years and years of happy memories to make with your new dog!

## Redinger Spay/Neuter Clinic

### Operating Hours:

Monday-Friday  
By appointment only.

600 Mason Avenue  
Suite 150  
Daytona Beach, FL 32117  
Phone: (386) 310-4935  
Fax: (386) 310-4999  
[www.redingerclinic.org](http://www.redingerclinic.org)  
Online appointments now available.

## Redinger Spay/Neuter Clinic Impact by the Numbers

- 3** age (in months) a dog (2) or cat (3) can safely be spayed or neutered
- 4-6** age (in months) a dog or cat can become pregnant
- 2-3** litters a dog (2), a cat (3) can have each year
- 4** average number of puppies or kittens in each litter
- 90%** animals received by shelters that are not spayed or neutered
- 11,000** annual sterilization capacity
- 25,000+** animals serviced by HHS each year

## Redinger Spay/Neuter Clinic Services & Price List

The first-rate standard of care at the Redinger Spay/Neuter Clinic is achieved by using cutting-edge medical practices and surgical techniques. Pricing is subsidized by donations in order to maximize Halifax Humane Society's mission of reducing the overpopulation of pets.

### Surgical Fees

Cats (male)	\$25
Cats (female)	\$40
Dogs (male)	\$55-99+
Dogs (female)	\$60-100+

### Vaccinations

1/\$10, 2/\$15, 3/\$25

Other surgical fees may apply.

\*Vaccinations are only available to surgical patients. The Redinger Spay/Neuter Clinic specializes in high quality surgeries and therefore does not offer a la carte services. Prices subject to change.

Consult our website for the most current pricing.

[www.redingerclinic.org](http://www.redingerclinic.org)

## Are you looking for a critter?

What exactly is a critter? A critter could be a rabbit, a guinea pig, a mouse, a ferret, a rat, a hedgehog, etc., and we have had many of these critters at HHS. In addition to these critters we also get many birds and reptiles that are available for adoption.

During construction the critters have been housed in our admissions lobby due to lack of space in the adoption trailer. Once construction is completed, critters will be moved back to the brand new adoption lobby area.

We once had a very large iguana that of course needed special care and a special diet. We were surprised by the amount of people who wanted to adopt him. We had to make sure the adopter knew how to care for an exotic creature before allowing the adoption.

### How to care for a guinea pig and other pocket pets?

Like with rabbits, it's all about diet for these guys. Guinea pigs need to have hay to make sure their tummies work properly, and they also need to have a constant supply of

vitamin C because they can't make their own vitamin C.

Additionally, vitamin C is really important for general health for skin. You've probably heard of people getting scurvy, well guinea pigs can get scurvy too.

It's really important that you do your research of what guinea pigs can eat, and what they need to eat and then provide it on a regular basis. Feed items such as: grass hay, dark green leafy vegetables, and vegetables and fruits that are high in vitamin C. Guinea pigs can get dental disease if they're not fed the correct food, which can cause a lot of problems. Always do research when planning for a new pet!

Come visit HHS for your next critter. You never know what you might find.

# DOG TRAINING

## Training Class Schedule

### Beginner Group Class

Open to all dogs 4 months of age and older, all sizes.

Costs: \$45.00 (\$35.00 if dog was adopted from HHS)

### Dog Fundamentals

Call today for upcoming dates and availability for the group Dog Fundamentals classes. These classes are 4 classes, one per week for just \$45.00 (\$35 for HHS adoption alumni) Special discounts on training aids (clicker, Weiss Walkies, and more during class sessions.)

Call today at (386) 274-4703 ext. 326 or Dial "1".

This 4-week class teaches you how to teach your dog basic obedience behaviors such as sit, stay, heel, "no", down, etc. Also how to control your dog when walking and when around other dogs and even the dreaded squirrel.

Our Behavior Manager, Marcia Helm, has a BA in Anthrozoology and is working towards her MA in the same field. As a certified dog trainer, she has over 25 years' experience with training dogs and working with behavior concerns of cats and dogs. Having her own rescue brought over 250 dogs and 150 cats and kittens through her home giving her a unique understanding of the challenges that can come with rescued animals.

**Sign Up Today: 386-274-4703 Dial "1"**

# ICI at Mosaic Goes the Extra Mile for Homeowner's Pets

We would like to welcome ICI Homes as one of our corporate business partners. I recently had the opportunity to sit down with Caroline Ross, Lifestyle & Activities Director at Mosaic, Michelle Trapp Llanos, Sales Manager, and Nina K Hosseini, Director of Customer Care & Land Development Analyst to discuss how ICI takes pet needs very seriously.

**HHS-** Why is ICI so considerate of pet needs when designing a home?

**Nina-** For ICI it's so much more than just a home, it's a lifestyle. A home is usually the largest investment made by people and the most important things to them are their families which includes their animals. Here at Mosaic, nearly 80 percent of our residents have dogs or cats. We have learned that it is very important to make sure that not only the homeowners are comfortable, but their pets are comfortable as well. ICI recognizes what a big part animals play in their owner's lives and wanted to create something exclusive for them. We developed a bathing room available as a custom option in our homes that includes a dog wash area reducing the need to bathe the dog in a separate room or take the dog to a groomer just for a bath.

**Michelle-** A lot of our homeowners consider their pets as part of their family and a large part of their lifestyle. ICI is a custom builder and thus we can design the home around their family and their pets. Over and above the inside features of a dog wash and an under stairs dog room, we also pay close attention to the backyard area of our homes. Fencing and other features that are pet friendly. There is a new ICI community opening March 9<sup>th</sup>, called Woodhaven in Port Orange, and we will be featuring the dog wash in the Costa Mesa model.

**HHS-** Are there any breed restrictions at Mosaic?

**Michelle-** No, we do not have breed or size restrictions specific to the community beyond any City of Daytona restrictions and our homeowners maintain and control their

dogs very well.

**HHS-** You are having a Pet Palooza event here at Mosaic on April 7<sup>th</sup>. We will be participating. Who else will be supporting this event and is it open to the public or just residents?

**Nina-** The event will be open to the public and we have visited with numerous dog/pet related businesses who are going to offer discounts at the event and to our Mosaic residents. Caroline can address more about the Pet Palooza event.

**Caroline-** I meet with our residents one on one to see what type of functions we can have to support their lifestyle and as noted I found that almost every resident has a pet. Offering events that are pet-centric is very important to our residents. With this in mind, we set out to create more pet family specific events. We started with a small photo event that was on National Dress Your Pet Day. All the residents really liked the idea of a Pet Palooza so they could meet other residents with their pets, and network with animal care professionals and businesses that offer animal services, like Halifax Humane Society. People who attend can find opportunities to adopt a pet, to get care for their pet, where to buy healthy pet snacks, how to train your cat, where to get pet costumes and accessories, and much more. A fun day of entertainment, food trucks, a petting zoo, games, and music for our community and their pets. Again, **Pet Palooza is on April 7<sup>th</sup>, from 3 pm to 6 pm at Mosaic located at 697 Mosaic Blvd., Daytona Beach, FL 32124.**

**HHS-** Pet Palooza will be a great event and we are happy to support it. We talked about the special building features for dogs; are there any features available for cats?

**Michelle-** Absolutely! The advantage of being a custom builder is that we can design and build whatever the customer desires. If someone would like stairs leading up to a cat-walk we can make that happen.

**Caroline-** On that note, it's the reason the event is a Pet Palooza and not just a dog palooza. We are reaching out to vendors who support all pets from dogs, to cats, to hamsters. It's a pet friendly event.

**HHS-** This area of Daytona is growing like crazy, but why did ICI decide to build the Mosaic community in this location which is on LPGA Blvd. about 2 miles west of I-95?

# “Tails” From the Retail Front

By Meg Evans, Merchandise Manager

## Pet Retail 2.0

We are so excited for all the new and wonderful things happening at our shelter! Aside from all the great things that we do for the animals in our community, we will be unveiling a brand new 800 square foot retail space showcasing everything that one might need to bring home their new fur-ever friend. I have had the great

Grooming products which are specifically Ph-balanced for your pet's skin and has a variety of solutions for all of your pet's skin and coat needs. They are also the exclusive product of our very own Lee C. and Patricia Culler Boarding and Grooming Center. We will be expanding these offerings to include nail trimmers, brushes and de-shedders to keep your pet maintained in-between grooming visits!

pleasure over the last several months of revamping our current merchandise mix.

Our mission-based focus really pinpoints the “best in show” of carefully curated merchandise selections in what I consider to be the 5 core segments that every pet owner will need when adopting a new pet. Under the **Basic Care** category, we have a lot of our client's needs met in terms of leashes, collars, litter pans, food/ litter scoops, etc. We will also be bringing in harnesses for smaller dogs and cat litter. The second key focus is **Nutrition**. Blackwood Premium Pet food is an amazing line that has never had a recall, is free from fillers and is appropriate for every age and even has sensitive skin/stomach lines and a senior diet for both cats and dogs. This will be featured on an interactive display so you can hear from the makers what makes their food so special. Our focus on **Grooming** supplies will feature Daytona Beach's very own Pet Caress Natural

Another area that we are newly expanding upon is **Health & Wellness** items. We will be bringing in Veterinary Oral Health Council approved dental care and water additives to keep your pet happy and healthy. Another line that we will be introducing are ear cleaners, anti-anxiety products and an increased selection of parasite preventative. Most importantly, we are expanding our **Pet Enrichment** lines. You asked, and we listened, and we will be broadening the lines of cat toys, busy feeders and interactive toys for sale. We will also have some great items in store to help with problematic behaviors like clawing and chewing for both dogs and cats. Stay tuned for the grand opening happening soon!

Be sure to check out our thrift store at 333 West Granada Blvd., #250 in Ormond Beach in the Gold's Gym/ ACE Hardware Plaza (behind ACE) to see a sampling of the new products that we have in store!

# More Kindness, More Enrichment!

## Largest Birthday Donation Ever!

Ryder Kuhlman and his mom, Rhonda came by with the largest birthday donation we have ever seen! Ryder asked that pet food, treats, toys, etc., be given for the animals instead of birthday gifts for himself. What a generous thing to do for our community's animals! Ryder also donated \$100 in cash for the animals. Ryder YOU ROCK!

*Ryder sitting with his donation.*

*Ryder with proud mom Rhonda.*

## Cat Pawsitive and Jackson Galaxy Project Help Get Our Cats Adopted

Thanks to the Jackson Galaxy Project, Halo Pet Foods, GreaterGood.org, Petco Foundation, the Cat Pawsitive behavior program is off to a fantastic start.

Shelters can be overwhelming for cats. The sights, sounds and strange smells can make even the most outgoing cat nervous and shut down. Shy cats that get overwhelmed will hide under blankets and in the corners of cages to avoid contact with anyone – including potential adopters. Unhappy cats also make for unhappy shelter staff and volunteers. Cat Pawsitive gives people the tools they need to help cats – and people – find their mojo and save more lives.

- Increasing the adoptability of cats in their shelters
- Keeping cats in the shelter engaged, and behaviorally and physically active
- Empowering and inspiring shelter staff and volunteers through increased knowledge
- Showing people in and out of the shelter that cats can be taught using positive reinforcement training methods
- Raising the public profile of shelter cats and the great work being done at Cat Pawsitive shelters

*Max learns to give high five.*

*Cat Pawsitive team (lt. to rt. Pam, Savannah, Marcia and Paula.)*

## Leave a Legacy to the Animals

When people think about leaving assets to a non-profit organization through one's will, many assume it is a tool only available to wealthy individuals. That is not the case, however. There are many ways to support Halifax Humane Society through our Planned Giving Program, and those gifts often cost nothing during your lifetime. Thanks to the generosity of HHS Board President Mel Stack, if you name HHS in your will, Mel will prepare it free of charge.

By remembering HHS in your will, you will guarantee that your love for animals will be expressed forever. Many of the programs in place at HHS today are funded from bequests left to us by generous donors. For instance, our low-cost spay/neuter program, our cat adoption cages, and our puppy/small dog room are all results of someone's gift to HHS and our animals.

For additional information about HHS programs and funding needs, please contact the HHS CFDO at (386) 274-4703 ext. 322

# Kindness Can Be Overwhelming! Our Community's Animals **THANK YOU!**

## WITCHES OF ORMOND RAISE \$1,500 FOR HALIFAX HUMANE SOCIETY

On Saturday October 13, 2018, you didn't have a spell on you when you saw witches walking through Ormond. Witches of Ormond gathered their witches hats and brooms and went through a local pub crawl to raise money for the Halifax Humane Society. In total over 40 witches attended the first ever Witches' Run. Combined with donations on site by local patrons and business owners, the Witches Of Ormond were able to raise \$1,500 for the Halifax Humane Society.

"It was a very rewarding feeling knowing that we were able to help the Halifax Humane Society while bringing the community together with a fun experience," said Founder, Brittani Preschel.

"The Witches Of Ormond will be active all year--so stay tuned for details on our next event planned for 2019."

## A **HUGE** DONATION!

Patsy and Valerie collected a huge amount of pet food for the animals and resale items that will be resold at our Thrift Store and converted to cash for the animals. Patsy's mom, Lonnie who passed away a few years ago was a dedicated HHS volunteer. She is sorely missed by all. Thank you for your donation Patsy and Val! Your kindness is overwhelming and Lonnie is smiling down on you both.

Pictured are Patsy and CEO, Miguel Abi-hassan.

Patsy, Val, and Michelle Hebb, Development Manager

*“Lowell and I have dearly loved our four legged, furry family members from Halifax Humane Society. They are rescues that have made our house a home, so for us it is now extremely gratifying to help renovate and expand our Halifax Humane Society facility.”*

*Please make your gift donation today and you too, will forever be part of this transformation.*

*Visit [halifaxhumanesociety.org](http://halifaxhumanesociety.org) to make your donation.*

*Nancy & Lowell Lohman*

(Continued from Page 16.)

**Michelle-** The landsite was selected based on the need for more housing in this area. The growth of this area has been great. Tanger Outlets, Tomoka Town Center Shopping Centers, and numerous major businesses like Sam's Club, Dave & Busters, and more are drawing people to this area for more housing. Being one of the few custom builders in this area, we offer our customers a definite advantage when it comes to options and choice, like pet friendly homes.

**HHS-** How many total homes will be built in Mosaic?

**Michelle-** When the entire development is sold out, there will be approximately 1,200 homes in this community with a current starting price point from the high 200's to the mid 300's.

*Pictured left to right- Nina K Hosseini, Director of Customer Care & Land Development Analyst, Michelle Trapp Llanos, Sales Manager; and Caroline Ross, Lifestyle & Activities Director at Mosaic.*

**Nina-** We are very committed to making our communities not just pet friendly, but pet safe. This is why we have partnerships with organizations like HHS who offer obedience training, boarding, grooming, and more.

**Caroline-** We have monthly gatherings called Sunday Fun Day where many times we feature a speaker that is with a pet friendly organization like invisible fence, or how to make homemade dog treats. We would love to have HHS come one Sunday to talk about all the services and programs you offer.

**HHS-** We would be happy to come and educate your residents. Any other comments?

**Nina-** We will inform our residents on what HHS does and the resources offered. We are happy to partner with your organization and thank you for caring for our community's animals.

For more information about ICI Homes and/or the Mosaic community, visit <https://mosaicdaytona.com> or contact Caroline Ross at 386.999.1413.

# Ask the Animal Behaviorist

By: Marcia Helm

*Dear Marcia,  
"I just got a new cat two days ago. She is hiding under my bed. How long will she do this before returning to being friendly like she was when I met her?"*

***Undercover Cat in Palm Coast***

Dear Undercover Cat,  
New environments can be frightening to animals. The sights, smells, and noises in an unfamiliar home can take some time to get used to. I suggest keeping your new cat in one room till she settles in. With food, water and a litter box plus some toys and a cat tower where she can see out a window she can start to explore her new home. Some cats are more adaptable than others so it could be anywhere from an hour to a couple weeks for her to be completely comfortable. Spend time in that room talking with her and offering her treats. That can go a long ways when trying to tell her she's safe now.

*Dear Ms. Marcia,  
"I'm going on vacation this summer and wanted to take my dog with me. Do you have any tips to make the trip easier for both of us?"*  
***Easier Rider in Daytona***

Dear Easier Rider,  
Vacations with your pet can be a great way to explore the country. Be sure to update your vaccinations and to fill any prescriptions before you go. It is also recommended that you have your pet on flea and tick prevention as well as heartworm prevention to keep them happy and healthy during and after the trip. Having an identity crisis on the road is preventable with a collar and name tag, but is even better with a microchip to identify your pet in case they get lost. Preparing ahead of time will make your trip safe and give you piece of mind during fun adventures.

*Dear Marcia,  
"I got a new puppy, when should I start training him?"*

***Puppy Love in Port Orange***

Dear Puppy Love,  
You can start teaching simple cues like touch or sit around week 5 or 6. Group puppy classes are a great way to socialize and learn new behaviors and can be started after your puppy has their second set of shots. I hope you enjoy your new puppy and that you have a long, happy, well behaved life together.

The Halifax Humane Society's Behavior Department offers group training classes in Fundamental & Advanced Obedience, and an Enrichment class which offers fun ways of teaching impulse control. We also offer in-home behavioral consultations for dogs and cats as well as private training sessions in your home or at the shelter for dogs to meet the unique needs of challenging pets and busy owners.

Classes are held at multiple times a week at HHS. The training classes are \$45 for a 4 week session; dogs adopted from HHS are eligible for a \$10 discount. To sign up for a group class, private training, or behavior consultation please call (386) 274-4703 and dial extension 326 for our behavior manager.

If you have a question for Marcia, you can email her at [behavior@halifaxhumanesociety.org](mailto:behavior@halifaxhumanesociety.org)

# Volunteer Appreciation Banquet

By: Rianna Rosenkranse

The tables were set, food was cooking, the front table was filled with special rewards, and we were ready for over 100 volunteers to come through the doors of LPGA International for our Volunteer Appreciation Dinner.

Recognition and appreciation is a big deal when it comes to ensuring volunteers feel like they're a part of a nonprofit organization. Recognizing volunteers is more than just saying "thank you" every now and then, it is about showing your volunteers constant acknowledgment and also going above and beyond to show them how much they are appreciated.

With over 100 attendees, delicious food, great company, and numerous rewards and acknowledgments, HHS had a great time showing our volunteers how much we appreciate all that they do for us.

The dinner included salad, rolls, a choice of beef, chicken, or vegetarian, and dessert, along with a cash bar for those who wanted to unwind a little extra. While our volunteers and staff ate and socialized, we heard speeches about the appreciation we have for volunteers from the HHS CEO, Miguel Abi-hassan, our Board President, Mel Stack, and the Volunteer Manager, Rianna Rosenkranse.

To conclude our dinner, HHS gave out awards to volunteers who reached certain milestones. Volunteers who had a life time achievement of over 100 hours received a personalized certificate. Those with over 250 hours also received a HHS Volunteer Magnet. Volunteers with over 500 hours also received a HHS baseball cap. Those with over 1,000 hours also received an HHS tumbler. Those that achieved over 2,000 hours also received a HHS coffee tumbler. The volunteers who were extremely dedicated with over 3,000 volunteer hours received a special gift along with their other rewards.

In addition to our lifetime awards, we gave a special Volunteer of the Year Award to our volunteer with the most hours for the current calendar year. Our Volunteer of the Year award was given to Tom Fowler, one of our most dedicated dog walkers, who had over 1,870 volunteer hours!

HHS is amazed by the work, dedication, and time our volunteers donate to us. We thank them for all that they give us and look forward to constantly showing them our appreciation.
